## 1. Safety

Please read the safety notices and these instructions before using the parasol. In this way, you will avoid injury or damage to yourself or other persons.

### Unpacking

#### Packaging material is not a toy

Dispose of plastic bags and other packaging material properly immediately after unpacking.

*Children, persons with disabilities or animals cannot assess the risks posed by packaging material and may be injured or killed while playing.*

#### Keep the instructions in a safe place

These instructions belong to the parasol. Keep this manual for future reference, so that you or other persons can access the information on safety and operation.

*Missing information can lead to accidents.*

#### Proper use

The parasol is designed to provide protection against solar radiation. Any other use, also in extreme weather situations, is not allowed.

*Use for other purposes may result in injuries.*

### Opening

#### Check for damage

Check the parasol for damage before opening. If you identify damage, do not open the parasol.

*You may suffer injuries when opening a damaged parasol.*

#### Only proficient persons

Only allow experienced individuals to open and close the parasol.

*Inexperienced persons, persons with disabilities, or small children can injure themselves or other persons when opening or closing.*

#### Pay attention to your surroundings

Pay attention to your surroundings when opening. You need enough free space around you when opening the parasol.

*You, other persons or animals may be injured when the device is opened out.*

### Light protection

The parasol protects against direct sunlight in its shade. There is no protection against indirect rays of sun caused by reflections.

*Therefore, wear sunscreen to protect your skin.*

### Closing

#### Secure parasol with fastening strap

Secure the parasol with the fastening strap after closing. This way you avoid unintentional opening of the parasol.

*A parasol that opens unexpectedly may cause injuries.*

### Storage

#### Choose a safe place

Use the carrying case for storage. Choose a safe place for storage that is not accessible to persons with disabilities or children.

*Persons may incur injuries from playing with the parasol.*

### Disposal

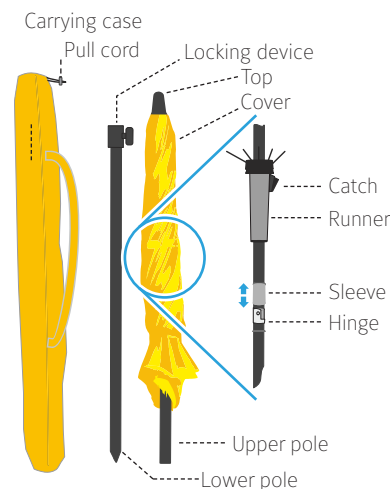

#### Do not disassemble parasol

Do not disassemble the parasol before disposal.

*You may be injured on sharp edges or pointed parts.*

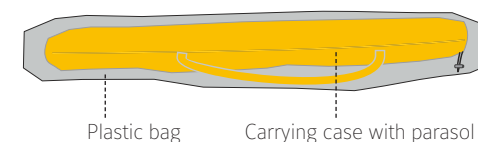

## 2. In advance

Get to know your new parasol here.

## 3. Unpacking

After unpacking, please dispose of the packing material properly. Observe the regulations for waste disposal in your area.

> Remove the plastic bag

Mark	Material	Class
	Box	21 Pap
	Plastic	02 HDPE

## 4. Installation

You can purchase a compatible parasol stand from FARE for the safe setup of the parasol. Please note the following information regarding the setup of the parasol:

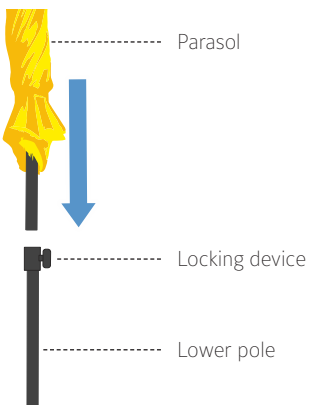

- Only use the parasol with a compatible parasol stand and adequate ballast.

- The installation site must be level and firm. Maintain sufficient distance to heat sources and naked flames. Measure the distance so that a parasol does not come into contact with the heat source or naked flame if it accidentally topples or is knocked down.

- The parasol is designed for use in light winds up to wind force 3 and light rainfall. Close the parasol at higher wind forces, or if there are gusts of wind or other weather conditions such as heavier rainfall.

> Place bottom pole into parasol stand and secure in the parasol stand

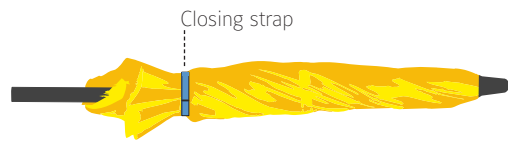

- > Place parasol in the lower pole
- > Secure parasol with locking device

## 5. Opening

You can open the parasol by spreading it out.

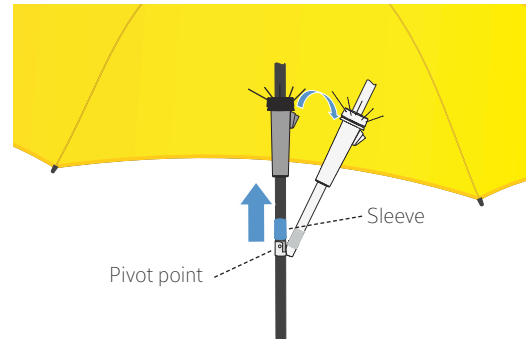

- > Open the closing strap

- > Keep parasol away from you, press catch and push slider upwards. The parasol spreads out and the slider engages in the upper position.

## 6. Align

You can align the parasol to face the sun.

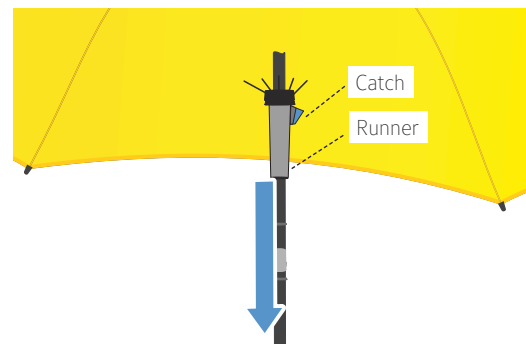

- > Push up sleeve
- > Bend parasol in hinge direction
- > Secure parasol with sleeve

**Align parasol in a straight line again:**

- > Push up sleeve
- > Align parasol in a straight line
- > Push sleeve down

## 7. Closing

You can close the parasol mechanically.

- > Align parasol in a straight line
- > Press catch and push slider down
- > Secure parasol with fastening strap

## 8. Storage

You should store the parasol in a dry and safe location.

### Tips

- Leave the parasol open to dry if wet.
- You can store the dry parasol closed and secured with fastening strap in the carrying case.

## 9. Care

The parasol requires very little maintenance and care.

### Tips

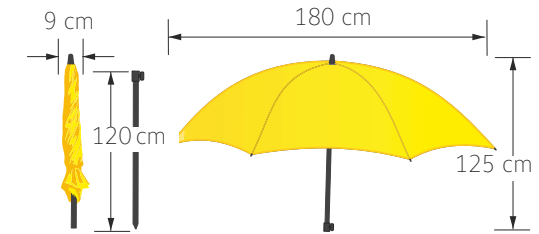

- You can use a slightly dampened cloth for the cover. Do not use any cleaning agents as otherwise the cover becomes permeable to water.
- A dry, soft cloth is suitable for the upper and lower poles.

## 10. Disposal

If the parasol has become worn-out, you can dispose of it with household waste. Find out about the regulations applicable to your local area at the time of disposal.

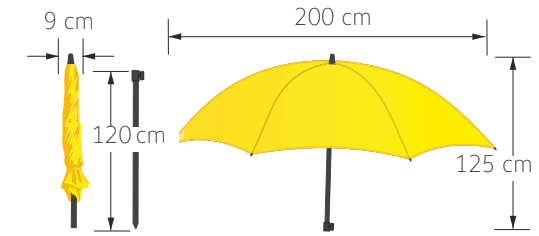

## 11 Technical specifications
